

Peak Performance

Class 205-370

The optimal solution for sewing the heaviest material

The extremely sturdy design of the Durkopp Adler 205 is aimed to guarantee the highest durability and best stitch quality for the heaviest operations in the sewing industry.

If you are looking for a long lasting sewing machine that is able to sew multiple layers of thick leather by the use of heavy threads, the Durkopp Adler 205 is definitely the machine of choice. Due to the optimized triple feed kinematics, the machine ensures an excellent stitch pattern and constantly tight stitches.

A stitch length of up to 10mm and the high foot stroke are indispensable features to sew heavy leather and fabrics.

We offer the following machine types:

205-370-30 - 12 inch arm

or get the new, factory-extended

205-370-40 - 16 inch arm
